Phase 3

Updated W Cape Public Sector Vaccine Supply Pipeline

Up to 26 August 2021, the public sector has received **2 196 460** vaccine doses:

- 1 871 730 Pfizer doses
- 324 730 J&J doses

AG special vaccination programme audit – W Cape

During the audit, the team focussed on the following:

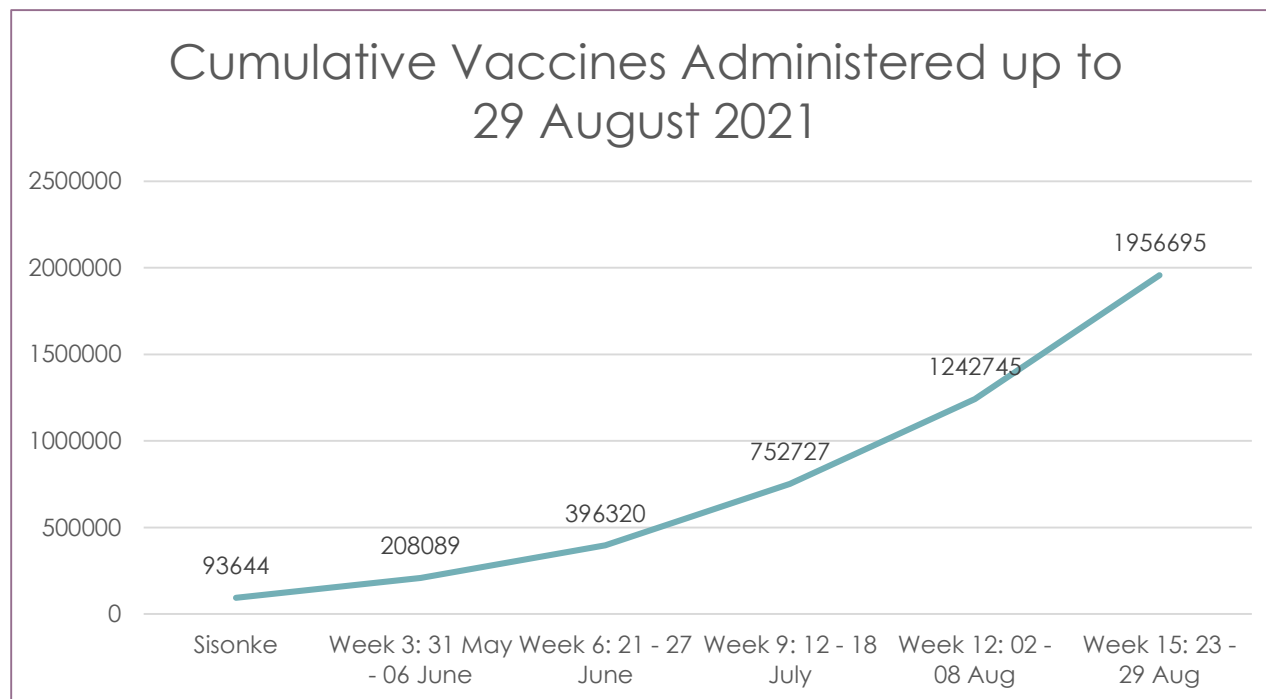

1. Planning and management of the Covid-19 vaccination roll-out programme
2. Availability of relevant resources at the vaccination site
3. Stock management and monitoring systems at the vaccination site
4. Administration of Covid-19 vaccines at the vaccination site
5. Disposal of medical waste at the vaccination site.

Communication of Audit Observations:

“In performing the audit on the Covid-19 vaccination programme at the Western Cape Department of Health, **we did not identify shortcomings/audit findings**. Our observations noted during the audit are recorded in the attached annexure”.

Type of vaccination site	Name of facility	Date of visit by audit team
Hospital (vaccination only)	Lentegeur Hospital (General hall)	12 July 2021
Hospital (vaccination and distribution site)	Harry Comay TB Hospital	14 July 2021
CHC (clinic)	Themba lethu CHC	15 July 2021
CHC (clinic)	Retreat CHC	19 July 2021
Temporary outreach service	Van der Stel Sports Grounds	20 July 2021

Vaccines Administered

Proportion Vaccines Administered: Public and Private Sectors

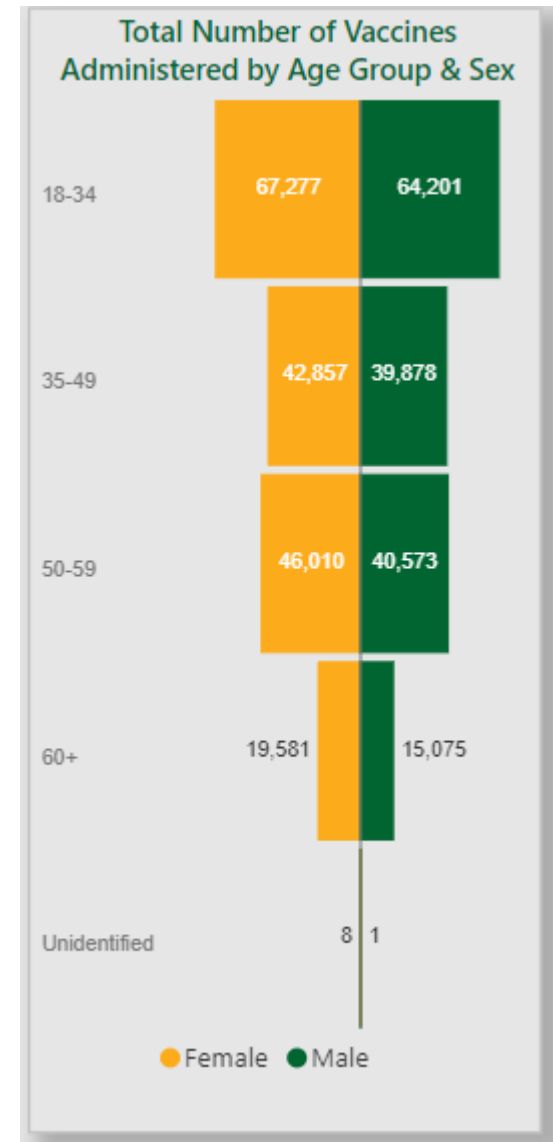

Cumulative Total Recorded on EVDS on 29 August 2021 = 1 956 695

Source: NDoH Dashboard ([Microsoft Power BI](#)) accessed on 29 August 2021 @19:15

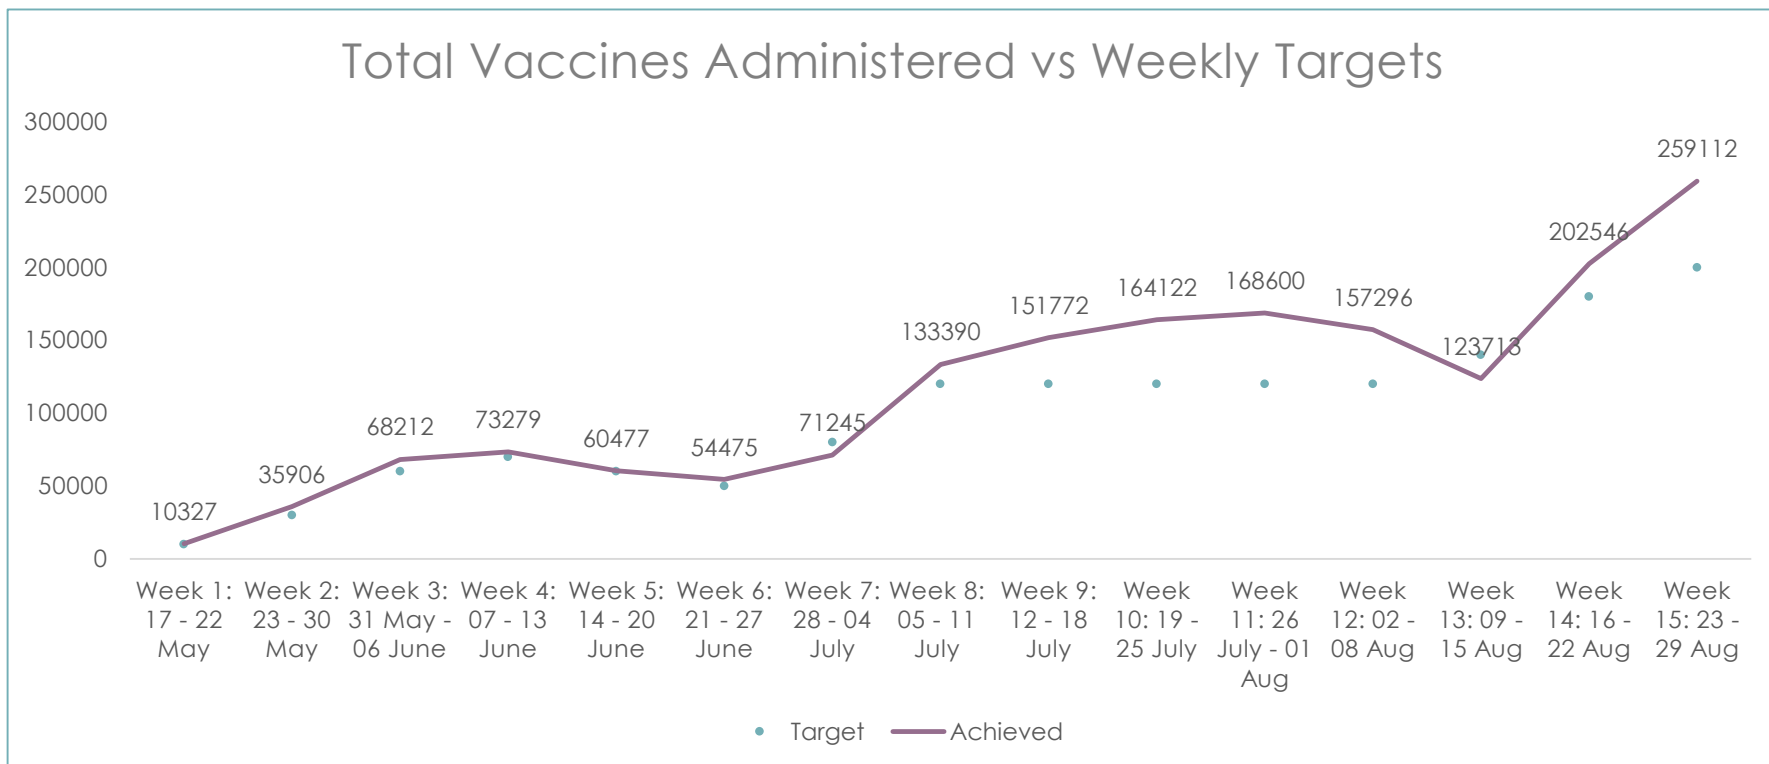

Disclaimer: Data displayed in these graphs and tables only contains records captured on EVDS. Totals will be adjusted as back-capturing and data validation is done.]

18 – 35 Years uptake: 20 – 29 August 2021

1. Registration for the age category 18 Years and older opened on **20 August 2021**.
2. The age category 18 – 35 Years has dominated uptake since becoming eligible, resulting in the **province recording a record number of 53 290 vaccines administered on 20 August 2021**.
3. Between 20 and 29 August 2021 (10 days), a total of **131 478 individuals between the ages of 18 and 34 years** have received a Covid-19 vaccine.

Vaccinations Administered Against Weekly Targets

Note: Targets are informed by available vaccine supply.

[Disclaimer: Data displayed in all tables, graphs and dashboards only contains records captured on EVDS and excludes vaccination records captured on paper. Totals will be adjusted as back-capturing and data validation is done.]

Weekly Targets – week 13 to week 15

Mass Vaccination Sites

1. The **CTICC Vaccination Centre of Hope** has administered **63 345** vaccines up to 27 August 2021.
2. Up to 27 August 2021, the **Athlone Stadium Mass Vaccination Site** had administered a total of **7 551** vaccines.
3. The **EMS Pinelands Mass Site** will gear up to assist in getting **Matriculants vaccinated** ahead of the final examinations. Up to 27 August, **31 227** vaccines have been administered at this site.

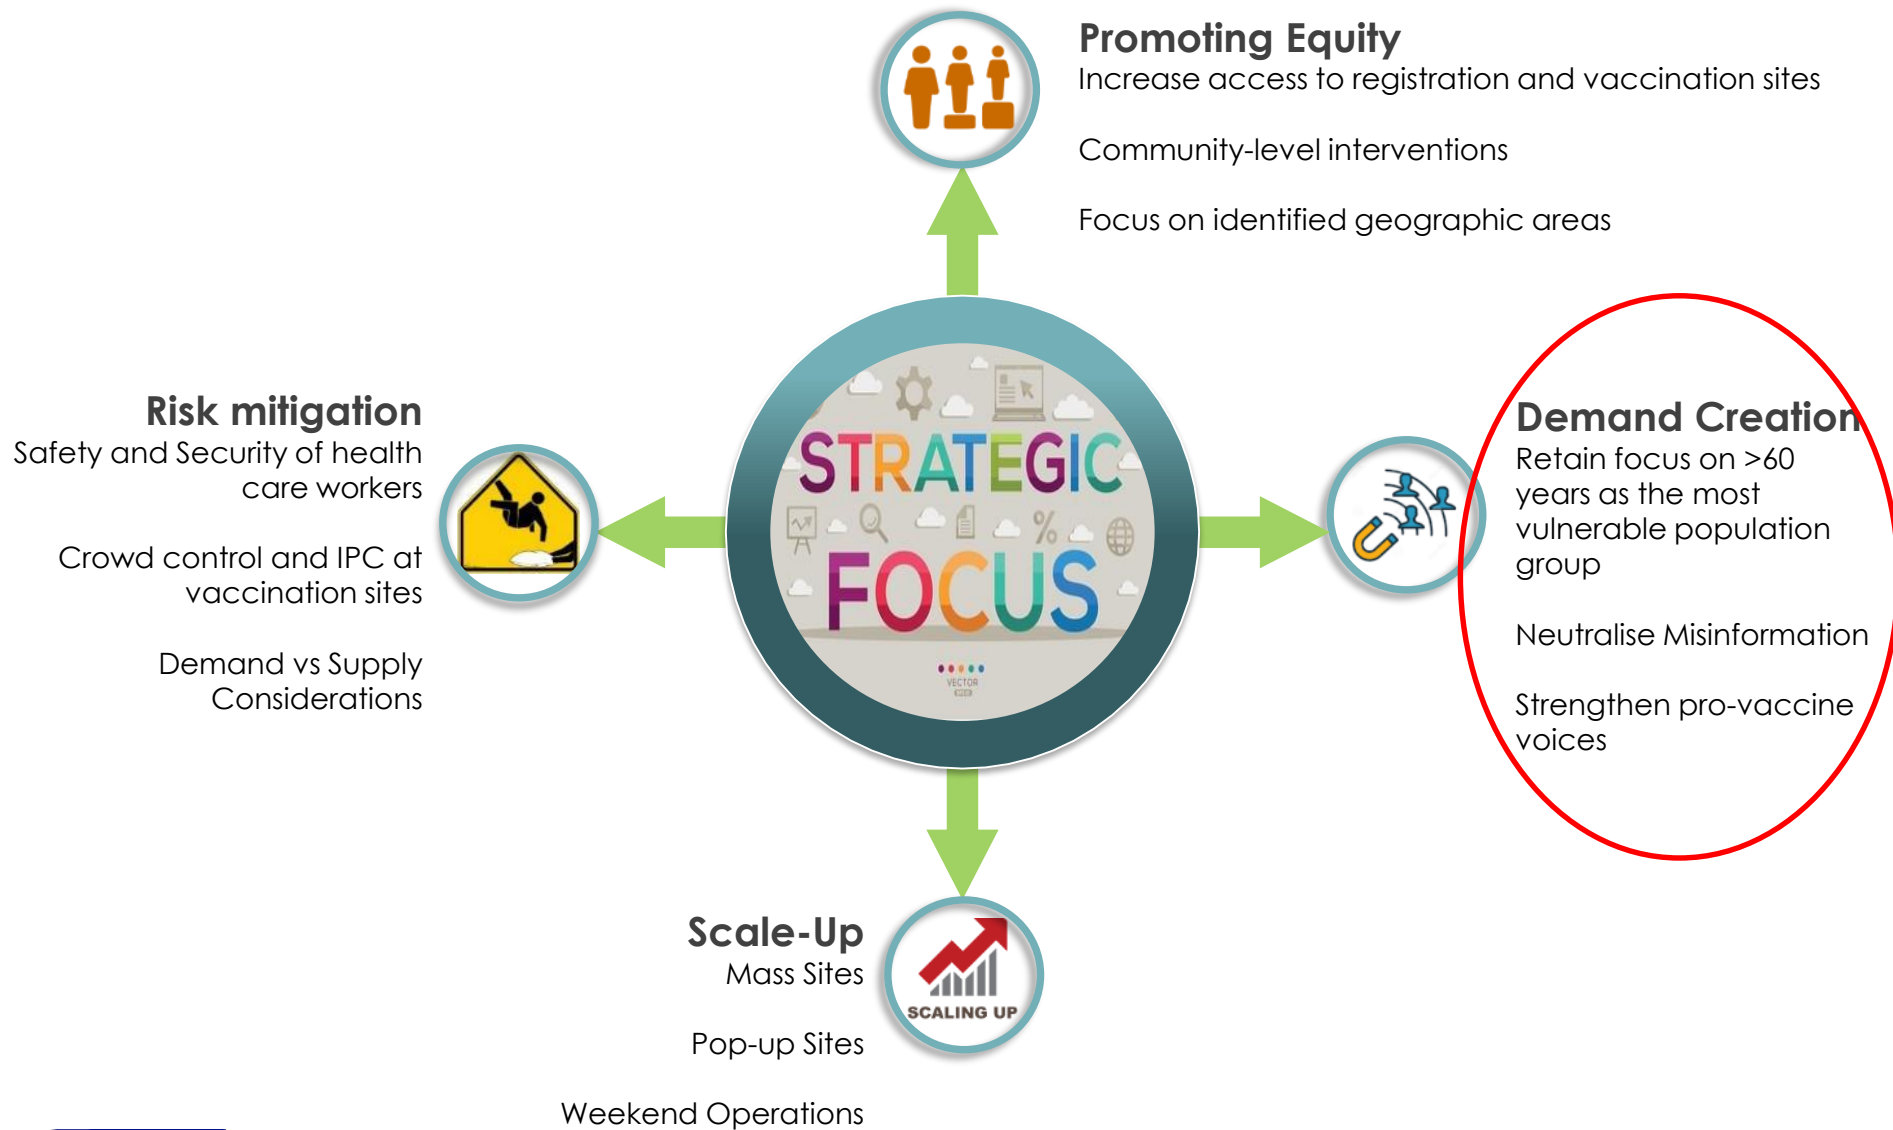

*The Cape Town International Convention Centre (CTICC) was packed on Friday with people over 18 queued up to get their jabs.

WATCH: CTICC vaccine queue snakes around building as over 18s come out for jabs

Current Strategic Focus

Concluding remarks

1. We are **at the peak of 3rd wave** with **early signs of decline**, but urge everyone to **adhere strictly to protective behaviours, to contain** it over **the coming weeks**.
2. We have **tailored our response to the 3rd wave**, with **clearly identified trigger points** for an **appropriate health platform and societal response**.
3. We continue to require **a concerted whole of government** and **whole of society response** to **flatten the 3rd wave**, to protect the health system.
4. We have **scaled up** our **vaccination capacity** to **administer vaccines** over the past 14 weeks. We have the capacity **to vaccinate >50 000 people/day**.
5. We need to scale our **mobilisation and assist everyone >18 years** to be **registered on the EVDS**, and **to be vaccinated**. Lets all be **vaccine ambassadors**.

Thank you
